Pert Chart Simulator: User Manual

Description: Pert Simulator is an interactive practice game designed to help students understand pert diagrams. The user must fill in the correct Early Start (ES), Early Finish (EF), Late Start (LS), Late Finish (LF), and Slack for each task in a PERT diagram.

Controls:

Click: Select any of the white input boxes (ES, EF, etc.) for a task.

Type: Enter your calculated number.

Click "Check": Press the "Check" button to have the system validate your answers.

Feedback System:

Correct Answer: The input box border will turn green.

Wrong Answer: The input box border will turn red.

Full Success: When all answers are correct, the critical path will light up.
